A Faith-based Christian Ministry Sustained Through the Prayers, Offerings and Partnership of God's People

## Chinese Missions Outreach Teaching Seminar (Part II) The Chinese Church Prepares to Reach the World Phu-Ket, Southern Thailand

Dear Friends and Supporters;

It's been a month since we left Phu-Ket Thailand after wishing our newfound Chinese friends farewell. You may notice I've modified our header from "God's Word for Isan" to "God's Living Word for all People" because that's what it is: living, and for all people, everywhere! In last month's newsletter I told how elated Cheryl and I were, having been given a special invitation to participate in a week-long Chinese Missions teaching symposium. The theme was, how best to prepare Chinese missionaries to reach the unsaved among the unreached people groups in China and around the world in an effective cross-cultural manner. As veteran cross-cultural missionaries, that's what we set out to accomplish during the short time we had with them. I have been doing some consulting for them recently concerning observation and selection of potential missionary candidates – typically the younger generation. Following are some photos.
